About

As an aspiring web developer specializing in Next.js, React, JavaScript, Bootstrap and Tailwind, I am excited about the opportunity to contribute my skills and enthusiasm to a web development internship. My most notable experience includes actively participating in the development of a comprehensive timetable website for my university, streamlining scheduling processes and enhancing user experience, with a strong attention to detail, problem-solving mindset, and a passion for creating intuitive web solutions.

Experience

2023 - 2024

Software House COMSATS University I Sahiwal

Internship

I collaborated with a software house to develop a university timetable website using React.js and Tailwind CSS. The website has an intuitive UI, supports CSV file import/export, and fetches real-time updates through API integration.

Projects

CUI Timetable Fullstack App

Software House COMSATS University I Sahiwal

Frontend Developer

Features

- Includes filters using **React.js**
- API handling
- CSV file handling
- Beautiful and responsive design using the **Tailwind css**

Personal Portfolio

Self Project

Frontend Developer

Features

- Using the latest technology of **Next.js**
- Better animation using **Framer Motion**
- Beautiful and Responsive design using **Tailwind css**

Netflix Clone using React.js

Self Project

Frontend Developer

Features

- API handling
- Beautiful and Responsive design using **custom css**

Additional Projects

Dice game | Self Project | Frontend Developer

Features

- **DOM handling** in javascript
- Beautiful and Responsive design using **custom css**

Landing pages | Self Project | Frontend Developer

Features

- Beautiful and Responsive design using **Tailwind css**
